London
2014**

*British Journal of Science, Education and Culture, 2014, No.1. (5) (January-June).
Volume III. "London University Press". London, 2014. - 440 P.*

Proceedings of the Journal are located in the Databases Scopus.

Editor-in-Chief: *Prof. Gloriya Taylor , D. M. (UK)*

Executive Editor: *Mary Robinson, D.Phil. (UK)*

Technical Editors: *Margaret Gray, Lucy Wong (Canada)*

Editors:

Prof. Erin Robbins, Dr. P. H. (UK)

Prof. Dominik Stiles, D. P. E. (Canada)

Prof. Leyn Hewitt, D. M. Sc. (Australia)

Prof. Dominik Burleson, DHSc. (USA)

Prof. Rayan Cooper, D. Sc. V. M. (UK)

Prof. Sintiya Holmes, D. P. E. (USA)

Prof. James Ridley, D. M. (Australia)

Contents

Biology and Chemistry

<i>Vitali Mischenchuk, Mikhail Tkachuk, Valentyna Yuz'kova, Vasili Nechyporuk, Nataliia Khovanets</i> Macrokinetics of physicochemical processes of electroreduction of anions	7
<i>Alexander Komlevoy, Yuriy Bazhora, Viktor Cherniavskiy</i> The differential analysis of seasonal changes of the moisture condensate macromolecular structure of the exhaled air according to laser correlation spectroscopy data	19
<i>Antonina Suzdaleva, Svetlana Goryunova</i> New approach to the formation of international fresh water resources market	28
<i>M. Shaov, O. Phikova, D. Khashkhozheva,</i> Action of neyroinformation signals on indicators of cardiovascular system and the total RNA	33
<i>E. Anohina, G. Shuvaeva, E. Popova, O. Korneeva</i> Investigation on the influence mannooligosaccharides on <i>B. bifidum</i> in conditions in vitro and in vivo	38
<i>V. Vlizlo, R. Iskra, I. Maksymovych, R. Berezovskyy</i> The system of erythrocyte antioxidant protection in piggery as affected by ferrous citrate	44
<i>L. Glagoleva, I. Korotkikh</i> Investigation of the influence of the process and the medium properties conditions on the kinetics of green buckwheat flakes swelling process	50
<i>Kateryna Dovgych, Evgenia Tkach</i> Phytodiversity of natural phytocenoses of agricultural landscapes of Ukraine	55
<i>Liliia Molotovska, Dmytro Shakhnin, Victor Malyshev</i> Synthesis of heat resistant nanocrystalline powders, single crystals and coatings of chromium disilicide	60
<i>Sharapatin Gasanov, Dzhamilya Gasanova, Muslimat Abakarova</i> The analysis of features exterior signs of bumblebees (<i>Bombus</i>) in the South-East of the Great Caucasus.....	64
<i>Vitaliy Nikolaichuk, Marina Kryvtsova, Nadija Bobryk</i> Biological activity of Transcarpathian soils in zone of anthropogenic pollution	68
<i>Olga Biedunkova, Alexander Klimenko, Petruk Alina</i> Comparative analysis of the seasonal dynamics of bioaccumulation of toxicants in different types hydroecosystems .	75
<i>Olha Hulka</i> The adaptation of students from different areas of training to professional conditions of higher education	83
<i>Sergey Lebedev, Julia Litsman</i> Investigation of kinetics of hydrolysis of sucrose in hydrochloric acid solutions	89
<i>Sergey Hablak</i> Root development of <i>Arabidopsis thaliana</i> (L.) Heynh. species.....	94
<i>Umar Gairabekov</i> The problem of recultivation of oil polluted lands of urbollandscape (for example, Grozny)	101
<i>H. Zhanbekov, M. Zhaksibayev, H. Nazarymbetova, A. Kozybayev, Zh. Mukatayeva</i> Stereoselective hydrogenation of acetylenic derivates based on modified supported copper catalysts	107
Health and Sport	
<i>Milan Nešić, Franja Fratrić, Branislav Radnević, Kosta Goranović, Vuk Vukašinović,</i> Managerial factors of motivation in karate sport.....	114
<i>Valentina Sosina, Iryna Ruda</i> The research of risk of injuries and disorders in musculoskeletal system at rhythmic gymnastics representatives	122
<i>Volodymyr Kormiltsev</i> The factors influencing on the rehabilitation process of individuals with low back pain in the remission stage	127

<i>Grygoriy Gryban, Oleksandr Gusak</i> Activation of sports and recreational activities of students with disabilities in health during the learning process in physical education.....	132
<i>E. Prytkova, S. Surnina, O. Klychkov, E. Gorina, A. Surnin</i> Analysis of motive activity of modern youth.....	137
<i>Erlan Seisenbekov</i> Comparative analysis of the organizational forms of physical training and sports performance of educational institutions in foreign countries.....	142
<i>Lyudmila Balushka, Andriy Okopniy</i> The level of physical qualities of the students of the Lyceum-depth military and physical training.....	147
<i>Lyudmila Sokolenko, Yulia Boyko, Yulia Gumennaya</i> Forming of students' culture of healthy way of life	152
<i>Yuriy Briskin, Maryan Pityn, Neonila Neroda, Oleksandr Vaulin</i> Competition system organizational features in epee fencing	158
Medicine	
<i>M. Filipova, R. Kastelov, D. Popova, Ev. Nikolova, N. Petrova</i> Thrombolysis at Kinesitherapy	164
<i>Alexander Yazykov, Vladimir Andriushchenko, Ivan Lukavenko</i> Benign Breast Disease surgery: Evaluation of Life Quality.....	168
<i>Aminat Gadjeva</i> Anatomische merkmale von cava venen bei den ratten im früheren postnatalen period.....	177
<i>A. Oliynyk , A. Pereyaslov</i> Bandage for prevention of septic complications of surgical postoperative wounds	181
<i>Ganna Fadieieva, Lyudmyla Prystupa, Oksana Pogorelova, Tatyana Mazur</i> Comparative influence of body mass index on response to asthma therapy.....	185
<i>S. Shalimova</i> Influence of type 2 diabetes on adipokines levels in patients with essential hypertension.....	191
<i>B. Kravchuk, P. Sokur, V. Slyva</i> Clinical And Diagnostical Aspects Of Benign Mediastinal Formations In Children.....	197
<i>Valentina Goncharenko</i> The progress of major dental diseases in diabetes mellitus.....	207
<i>Salim Davlatov, Nurbek Kushmuradov, Zafar Kurbaniyazov</i> Complex treatment of purulent cholangitis	214
<i>Vladimir Shevchuk</i> Morpho-functional state of erythrocytes during the treatment of nonalcoholic steatohepatitis associated with metabolic syndrome	220
<i>Vyacheslav Vasilev, Dmitry Krivenko, Nikolay Pudovkin</i> Food quality pond carp at use diet selenium-containing preporat Selenolin	224
<i>Galina Nykytiuk, Bohdana Verveha, Irena Lukovych,</i> The effect of chronic antigenic strain on phagocytosis under incubation of neutrophils with endothelial cells and its correction.	229
<i>Dmytro Zhunko, Valeria Kasyanova,</i> Application of local microwave hyperthermia of the prostate in the complex rehabilitation of patients with chronic pelvic pain syndrome on having of metabolic syndrome.	233
<i>Ye. Lytvynets, A. Sandurskyy, V. Trishch</i> Investigation of the Functional State of the Vascular Endothelium in Patients with Various Forms of Chronic Prostatitis.....	239
<i>Ekaterina Sergeeva, Artem Scholyar</i> Clinical features of the schizoprenia proceeding against tuberculosis of lungs.	242

E. Grechanina, Yuliya Grechanina, Olena Zdybska, Maksim Kaniuka, Ludmila Molodan, Ganna Senatorova

Effectiveness of qualifying diagnostics of hereditary metabolic diseases with the use of gas chromatography / mass spectrometry by the example of the HHH syndrome..... 245

Olena Psarova

The levels of inflammatory markers in patients with coronary heart disease depending on gene apolipoprotein E -2/-3/-4-polymorphism and body weight 257

Igor Kolisnik

Morphological and histochemical studies of white rats under the influence of detergents..... 265

Igor Revechuk

Gnoseological and methodological crisis and new diagnostic concepts in psychology and psychiatry: focus of attention to addiction diathesis. 270

Inessa Safonova, Irina Lukjanova, Elena Zhadan

Ultrasonographic images and postnatal clinical outcomes in various embodiments of fetal abdominal anomalies 277

Valery Lekhan, Lily Kryachkova, Galina Kanyuka

Blockages to administrative activity of the managers of public health institutions 285

Lyudmila Litvinets

The possibility of correction of the immunological state in children with the bronchial asthma 291

Juliana Litvinets-Holutyak

The conception of indications change's of the immune status in patients with odontogenic cysts 297

Marina Kucheriavchenko, Olga Nicolaeva, Uriy Rezunenko, Nikolay Scherban

The effect of triglycidyl ether of polyoxypropylene triol on the intensity of blood serum phosphorescence in subacute trial and its prognostic value..... 302

M. Kochueva, A. Shalimova, V. Suhonos, V. Psareva, N. Kirichenko,

The possibility of correcting of structural and functional state of target organs in patients with hypertension and obesity..... 308

Nikolay Popov, Svetlana Malanchuk, Anatoly Korobov, Marina Mishina

Formation of neutrophil extracellular traps under the influence of monochromatic light-emitting diode 314

N. Volchenko

Oral hygiene indices in 9-16-year old schoolchildren with different education load 319

Nina Yakovychuk

The modified method of two-fold serial dilutions for study of biological activity of new chemical compounds..... 322

Ye. Lytvynets', O. Vintoniv

Effectiveness and safety of combined treatment of the erectile dysfunction in patients with arterial hypertension..... 326

Oksana Hodovanets

Indicators of collagen metabolism and hlykoproteyns in the oral fluid in children with concomitant tyreopatology .. 330

Oleg Chebotar

Reactive changes of salivary glands and mucous tunic of mouth in case of thyroid gland affection of individuals from industrial area of Krivbass 335

Olga Bilogortseva

The epidemiological situation regarding tuberculosis in children in Ukraine 340

Roman Bulyk

Structural organization of suprachiasmatic nuclei of the rats' anterior hypothalamus in case of photoperiod modification 345

Rezeda Khasanova

The contents of the intracellular transcription factor NF- κ B in lysates of dendritic cells in patients with pulmonary tuberculosis..... 349

Robin A Ralston, Karen Z Walker and Helen Truby

Studies Examining Whether Sugar Added to Foods Changes Body Weight: Is a Sweet Solution Out There? 354

G. Shodikulova

Study of endothelial condition in patients with undifferentiated connective tissue dysplasia 365

S. Kashchenko

Features of the peyers' patches microscopic structure of the rats after imunofan injection.....	370
<i>Svetlana Morjakina, Vaha Anzorov</i>	
Infringements of function of reproduction at highly productive cows	375
<i>Sergiy Sokolnyk, Igor Pasternak</i>	
Concentration of pro-inflammatory and anti-inflammatory interleukins in the blood of children with complicated peptic ulcer	382
<i>Emil Marinov, Silviya Tsvetkova</i>	
Survey on the specific nature of inter-hemisphere information processing in children with dyslexia.....	386
<i>Yuriy Rohovyy, Tamara Kopchuk</i>	
State of glomerular-tubular balance and tubular-tubular balance in the dynamics of fever development.....	394
<i>Tatiana Dieva</i>	
The new methodic approaches in the determination of stomatological orthopedic aid requirement of population	402
<i>Elena Koloskova, Uliana Marusyk, Elena Grigola</i>	
Features indicators of humoral immune system in school-age children with exercise induced asthma.....	408
<i>E. Tashkenbaeva, D. Togaev, F. Kadirova</i>	
Influence of the correctors of the purine metabolism in patients with instable angina with asymptomatic hyperuricemy depending on the level of uric acid in the blood.....	413
<i>Iulia Slynko</i>	
Some indicators of physical development of children whose mothers were in state of low motor activity during pregnancy	421
<i>Marieke Hendriksen and Hans Verhagen</i>	
An Assessment Framework to Delineate Between Dietary Foods for Special Medical Purposes and Normal Foods	427
