BestBETs BEST EVIDENCE TOPICS

Welcome to BestBETs

Physicians need rapid access to the best current evidence on a wide range of clinical topics. But where to find it? Textbooks are frequently out-of-date, and we don't have the time to perform literature reviews while the patient is waiting.

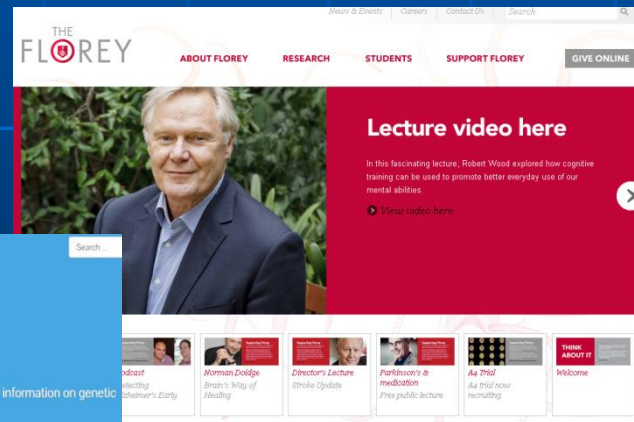

BETs were developed in the Emergency Department of Manchester Royal Infirmary, UK, to provide rapid evidence-based answers to real-life clinical questions, using a systematic approach to reviewing the literature. BETs take into account the shortcomings of much current evidence, allowing physicians to make the best of what there is. Although BETs usually had an emergency medicine focus, there are a significant number of BETs covering cardiovascular, nursing, primary care and paediatric.

Tell your colleagues about this site - it could save your department a lot of time!

Place your BETs!

Why not write a BET of your own, and have it published here, for the benefit of patients everywhere? We're keen to receive Best Evidence Topic reviews from colleagues all over the world. Use the submission form in the database

Director's Corner

Catherine Y. Spong, M.D., Acting Director, Obstetrician/

Рекомендации по клинической практике и оценка медицинских технологий

<http://www.surgeons.org>

The screenshot shows the Surgeons.org website with a red header. The main content area features a large image of surgeons in an operating room. Text on the left reads "SET Registration Open" and "Registration for the 2017 intake into the Surgical Education and Training (SET) program is currently open. SET Registration closes on 4 February 2016 at 5pm AEDT. Register early to avoid disappointment. Read more." On the right, there is a "RACS Login" section with a "Forgot your Username or Password?" link.

<http://joannabriggs.org/>

The screenshot shows the Joanna Briggs Institute website with a blue and white color scheme. A large banner features a photo of two people smiling and the text "MEASURING WHAT MATTERS: THE IMPORTANCE OF IMPACT". Below the banner, there are several navigation buttons: "Developing Country Clinical Fellowships", "JBI Short Courses", "JBI Matters", and "Our Impact". A central text block states: "We provide you with the best available evidence to inform your clinical decision-making at the point of care." A "READ MORE" button is visible.

<http://www.nice.org.uk>

The screenshot shows the NICE website with a dark header. The main content area features a large image of a group of people in a meeting. Text on the left reads "Got a question?" and "NICE Question Time takes place in Salisbury on 20 January 2016. Book your place to put questions to our Chief Executive and Chair." A "Book your place" button is visible. On the right, there is a "Find guidance" button.

<http://www.health.govt.nz>

The screenshot shows the New Zealand Ministry of Health website with a white and orange color scheme. The main content area features a large image of a group of people in a meeting. Text on the left reads "Welcome to the New Zealand Ministry of Health" and "The Government's principal adviser on health and disability: improving, promoting and protecting the health of all New Zealanders." There are several navigation buttons: "Health Strategy consultation feedback", "Fraxon berries and hepatitis A", and "Free phone advice".

<http://rnao.ca/bpg>

The screenshot shows the RNAO website with a blue and white color scheme. The main content area features a large image of two nurses in a clinical setting. Text on the right reads "Nursing Best Practice Guidelines" and "The purpose of this multi-year program is to support Ontario nurses by providing them with best practice guidelines for client care. There are currently 50 published guidelines as well as a toolkit and educator's resource to support implementation. Many of these publications are available in French, among other languages and we continue to translate materials on an ongoing basis." A "READ MORE" button is visible.

<http://www.sign.ac.uk>

The screenshot shows the SIGN website with a green and white color scheme. The main content area features a large image of a hand holding a pill. Text on the left reads "Therapeutics Initiative" and "Independent Healthcare Evidence". On the right, there is a "HELP US TO IMPROVE SIGN GUIDELINES" button. Below the main content, there is a "WHAT'S NEW" section with a link to "Antipsychotics should not be used for non-psychotic depression".

<http://guideline.gov>

The screenshot shows the AHRQ website with a blue and white color scheme. The main content area features a large image of a group of people in a meeting. Text on the left reads "Agency for Healthcare Research and Quality" and "Advancing Excellence in Health Care". There is a search bar and a "National Guideline Clearinghouse" section.

BMJ Group and McMaster University's Health Information Research Unit are collaborating to provide you with access to current best evidence from research, tailored to your own health care interests, to support evidence-based clinical decisions.

This service is unique: all citations (from over 120 premier clinical journals) are pre-rated for quality by research staff, then rated for clinical relevance and interest by at least 3 members of a worldwide panel of practicing physicians. Here's what we offer:

- A searchable database of the best evidence from the medical literature
- An email alerting system
- Links to selected evidence-based resources

Document Detail

SchARR-Lock's Guide to the Evidence

Abstract/OtherAbstract: A guide to printed sources of evidence for medicine. It aims to complement the IDEA list produced by Michael Zacks at the Oregon Health Sciences University, and to identify those materials less likely to appear in the Cochrane Library or on Medline. The list of documents included in the database is arranged alphabetically by MeSH headings. All documents in the list show evidence of a literature search to identify high quality evidence on the topic, or include a critical appraisal of a single article.
