INTRODUCTION

We had the great honor of 7th International Conference on Scientific and Innovative Studies ICSIS 2026. It was truly a great pleasure for us to greet a lot of participants from many different countries to attend ICSIS 2026! We firmly believe that the conference will become an important international event in the field of cross-industry discussion about innovations in Academic Studies.

Three cooperating organizations supported the two-day conference. There were 164 papers accepted for presentation at ICSIS 2026, contributed from different countries. We had plenary speeches and several well-known scientists and experts, to give invited talks at different sessions.

The purpose of ICSIS 2026 was to provide a forum for the participants to report and review innovative ideas, with up-to-date progress and developments, and discuss novel approaches to the application in the field of their own research areas and discuss challenges of doing science.

We sincerely hope that the exchange of ideas on doing research, science and improving education will help the participants, and international cooperation sharing the common interest will be enhanced.

On behalf the Organization Committee of ICSIS 2026, we would like to heartily thank our cooperating organizations for all they have done for the conference. We would also like to thank the authors for their contribution to the proceedings; the participants and friends of ICSIS 2026, for their interest and efforts in helping us to make the conference possible; and the Editorial boards for their effective work and valuable advice, especially the ICSIS 2026 secretariat and the ICSIS 2026 staff, for their tireless efforts and outstanding services in preparing the conference and publishing the Proceedings.

**7TH INTERNATIONAL CONFERENCE
ON SCIENTIFIC AND INNOVATIVE
STUDIES ICSIS 2026
APRIL 16-17, 2026**

25.04.2026

16-17 Nisan 2026 tarihlerinde MEET üzerinden çevrimiçi olarak gerçekleştirilen 7th International Conference on Scientific and Innovative Studies ICSIS 2026 konferansı akademik teşvik yönetmeliğinin 9. Maddesine istinaden “Tebliğlerin sunulduğu yurt içinde veya yurt dışındaki etkinliğin uluslararası olarak nitelendirilebilmesi için Türkiye dışında en az beş farklı ülkeden sözlü tebliğ sunan konuşmacının katılım sağlaması ve tebliğlerin yarından fazlasının Türkiye dışından katılımcılar tarafından sunulması esastır.” kriterlerini sağlamaktadır. Toplam 164 adet bildirinin yer aldığı kongre iki gün boyunca çevrimiçi olarak gerçekleştirilmiştir.

Türkiye dışından toplam 17 farklı ülkeden (Fas, Cezayir, Pakistan, Arnavutluk, Ukrayna, Hindistan, Tunus, Fransa, Birleşik Krallık, Azerbaycan, Irak, Çin, Malezya, Bulgaristan, İsrail, Sırbistan, Kırgızistan) katılım sağlanmış olup, 164 adet bildirinin 94 (%57,31) tanesi yabancı katılımcı tarafından sunulmuştur.

Kongremize ilginiz için teşekkür ederiz.

Saygılarımızla,

All Sciences Academy

**7TH INTERNATIONAL CONFERENCE
ON SCIENTIFIC AND INNOVATIVE
STUDIES ICSIS 2026
APRIL 16-17, 2026**

25.04.2026

16-17 Nisan 2026 tarihlerinde MEET üzerinden çevrimiçi olarak gerçekleştirilen 7th International Conference on Scientific and Innovative Studies ICSIS 2026 Konferansı, 2025 MART DÖNEMİ DOÇENTLİK BAŞVURU ŞARTLARI yönetmeliğinin 2. bölümde yer alan Uluslararası Bilimsel Toplantı tanımlaması “Farklı ülkelerden bilim insanlarının bilim kurulunda bulunduğu ve sunumların bilimsel ön incelemeden geçirilerek kabul edildiği toplantı.” şeklindedir.

7TH ICSIS 2026 konferansı bilimsel komitesinin çoğunluğu yabancı bilim insanlarından oluşmaktadır. Aşağıdaki link ile bilimsel komite incelenebilir:

<https://as-proceeding.com/index.php/icsis/committe>

Ayrıca konferansımızda hakem değerlendirmesi olup hakem değerlendirmesi olumlu sonuçlanmadan ücret talebinde bulunulmamaktadır.

2026 MART DÖNEMİ DOÇENTLİK BAŞVURU ŞARTLARI yönetmeliğinin 8. bölümde yer alan Bilimsel Toplantı tanımlamasının b bendindeki “Diğer Uluslararası/Ulusal bilimsel toplantının düzenleme komitesinde, kurum/tüzel kişilik/karar organı tarafından resmi olarak görevlendirilmiş üniversite/enstitü/bilimsel kurum/branş derneği akademisyen temsilcisi bulunması zorunludur.” şeklindedir.

7TH ICSIS 2026 konferansı düzenleme komitesinde farklı kurumlar tarafından görevlendirilmiş birden fazla üniversiteden akademik temsilciler bulunmaktadır. Aşağıdaki link ile düzenleme komitesindeki akademik temsilcilerin görevlendirme yazıları incelenebilir:

***Klebsiella pneumoniae*: A Leading Etiological Agent of Wound Infections**

Olena Kotsar¹, Olena Kochnieva^{2*}

Kharkiv National Medical University, Ukraine

*(ov.kochnieva@knmu.edu.ua) Email of the corresponding author

Abstract – During the full-scale war in Ukraine the number of wounded patients with severe complications has increased significantly. Blast injuries, gunshot wounds, traumatic amputations and burns are often accompanied by purulent-inflammatory processes caused by multidrug-resistant microorganisms. One of the leading pathogens is *Klebsiella pneumoniae*, which associate with wound infections, pneumonia and nosocomial infections and may account for every fifth death related to antibiotic resistance. The aim of the study was to determine the microbiome of wound infections and assess the antibiotic susceptibility of clinical isolates of *K. pneumoniae* to different classes of antibiotics. A total of 96 patients (men aged 20–45 years) with blast injuries were examined. Bacteriological methods were used to isolate pure culture of pathogens, the disk diffusion method was applied to determine antibiotic susceptibility. From clinical specimens were isolated 46 strains: *K. pneumoniae* – 39.0%, *Staphylococcus aureus* – 28.0%, *Pseudomonas aeruginosa* – 13.0%, *Acinetobacter spp.* – 8.7%, *Enterococcus faecalis* – 4.3% and *Escherichia coli* – 6.5%. Half of the *K. pneumoniae* strains were multidrug-resistant. The highest susceptibility of *K. pneumoniae* was observed to amikacin and gentamicin (45.4%), followed by piperacillin/tazobactam (36.3%). Susceptibility to ceftazidime, meropenem, levofloxacin and ciprofloxacin was 27.2%. Low efficacy (about 9%) was observed for amoxicillin, ampicillin/sulbactam, ceftriaxone, cefepime, cefoperazone, cefotaxime and imipenem. The results indicate a high level of antibiotic resistance among clinical isolates of *K. pneumoniae*. It significantly complicates the choice of effective therapy. Therefore, continuous microbiological monitoring, individualized treatment approaches and rational use of antibacterial agents are essential to reduce complications and mortality.

Keywords – *K. pneumoniae* strains; antibiotic sensitivity; wound infection; mine-explosive injuries
